2024-2025

## January Snowfall

Snowfall in many parts of the state was well above normal for the month. Parts of the state however did finish the month below normal for snowfall. Multiple systems moved through that brought higher snowfall values to the southern half of the state. The lake effect belt received snow totaling around 30 to 40 inches for the month. Northwestern portions of the state saw significantly less snow than other portions of the state. The normal snowfall for January for Akron is 13.4 inches, Athens 5.8 inches, Cincinnati 7.7 inches, Cleveland 18.4 inches, Columbus 9.5 inches, Dayton 8.3 inches, Toledo 12.3 inches, and Youngstown 19.6 inches. Due to the cold temperatures during the month, snow lingered for quite some time on the ground.

## Fall 2024 Honor Roll (Continued on next page)

**From September 1, 2024 through November 30, 2024, these Ohio stations reported everyday. Here are those stations who get a thumbs up for their dedication!**

Not listed below, but thought you reported everyday? You can check your reports. There are multiple ways to do this. You can go into your account and click on list/edit my daily precipitation reports. This will show your reports everyday. You can also go into 'view data' at the top of the page and click on 'station precipitation summary report.' Input your station and the period of interest. The missing days will be shown with dash marks. If there are additional questions e-mail [Ashley.Novak@noaa.gov](mailto:Ashley.Novak@noaa.gov).
