

The Catch

NOLAN DOESKEN'S BI-MONTHLY COCORAHS E-MAIL MESSAGE

A Boost for CoCoRaHS -- Thanks!

FORT COLLINS, CO -- December 27, 2013

Dear CoCoRaHS rain/snow measurers, friends and family:

As we close out another year, please accept my thanks and the thanks of our whole CoCoRaHS team for a job well done.

Together -- equipped with nothing more than rulers, some snow boards, our plastic rain gauges, and a lot of weather enthusiasm -- we've been able to track and colorfully map almost every storm that developed and moved across our huge country this year. Over 18,000 of us were out checking our rain gauges. That's amazing. We're a unique team, I'm sure -- but a great one. I appreciate you all very much and the time that you've shared to help CoCoRaHS.

I also want to express my thanks for those who have chosen to donate financially to help sustain the CoCoRaHS effort. The goal of 5,000 small donations may have been unrealistic, but we're now well over 1,000 and counting, and that's pretty neat. Thanks so much.

The "[Five for CoCoRaHS](#)" campaign continues through January 15th. If you would still like to make a tax-deductible donation before the end of 2013 or to start off the new year, just click here:

<http://www.cocorahs.org/Content.aspx?page=2013yearend>

or see the link to "Donate" on the [CoCoRaHS website](#). Let's see how close to 5,000 we can get.

Donations by mail?

You do not need to use the on-line donation system provided by our Colorado State University Foundation. You may send checks by mail. There are instructions to "print and mail" near the bottom of the on-line forms. Or you can simply make a check out to "Colorado State University Foundation" with a note in the memo section saying "in support of CoCoRaHS" and mail this to

Colorado State University Foundation
P.O. Box 1870
Fort Collins, CO 80522-1870

I'll get back to you in mid January to let you know how close we came to our goal.

Once again, thanks. It's so much fun working (and rain gauging) with all of you.

Happy New Year!!

Sincerely,

Nolan Doesken
Colorado State University
